Comes out at night

BATTLE WITH BED BUGS

HOME MAINTENANCE

- Seal cracks and crevices to prevent hiding gaps
- Cover box springs and mattresses with zippered cover
- Seal tears with duct tape
- Reduce clutter in bedroom
- Pull beds away from the wall/curtains

REGULAR CLEANING

- Vacuum carpet or fabric drapes and upholstered furniture regularly (dispose vacuum contents immediately and carefully)
- Wash bedsheets, curtains, clothes in hot dryer above 60°C
- Remove layer by layer and check for presence of bugs

ENGAGE PROFESSIONAL HELP

- Perform thorough site inspection
- Residual spray treatment
- Steam treatment at 180 degree celsius dry steam to eliminate bed bugs, larvae and eggs through thermal shock
